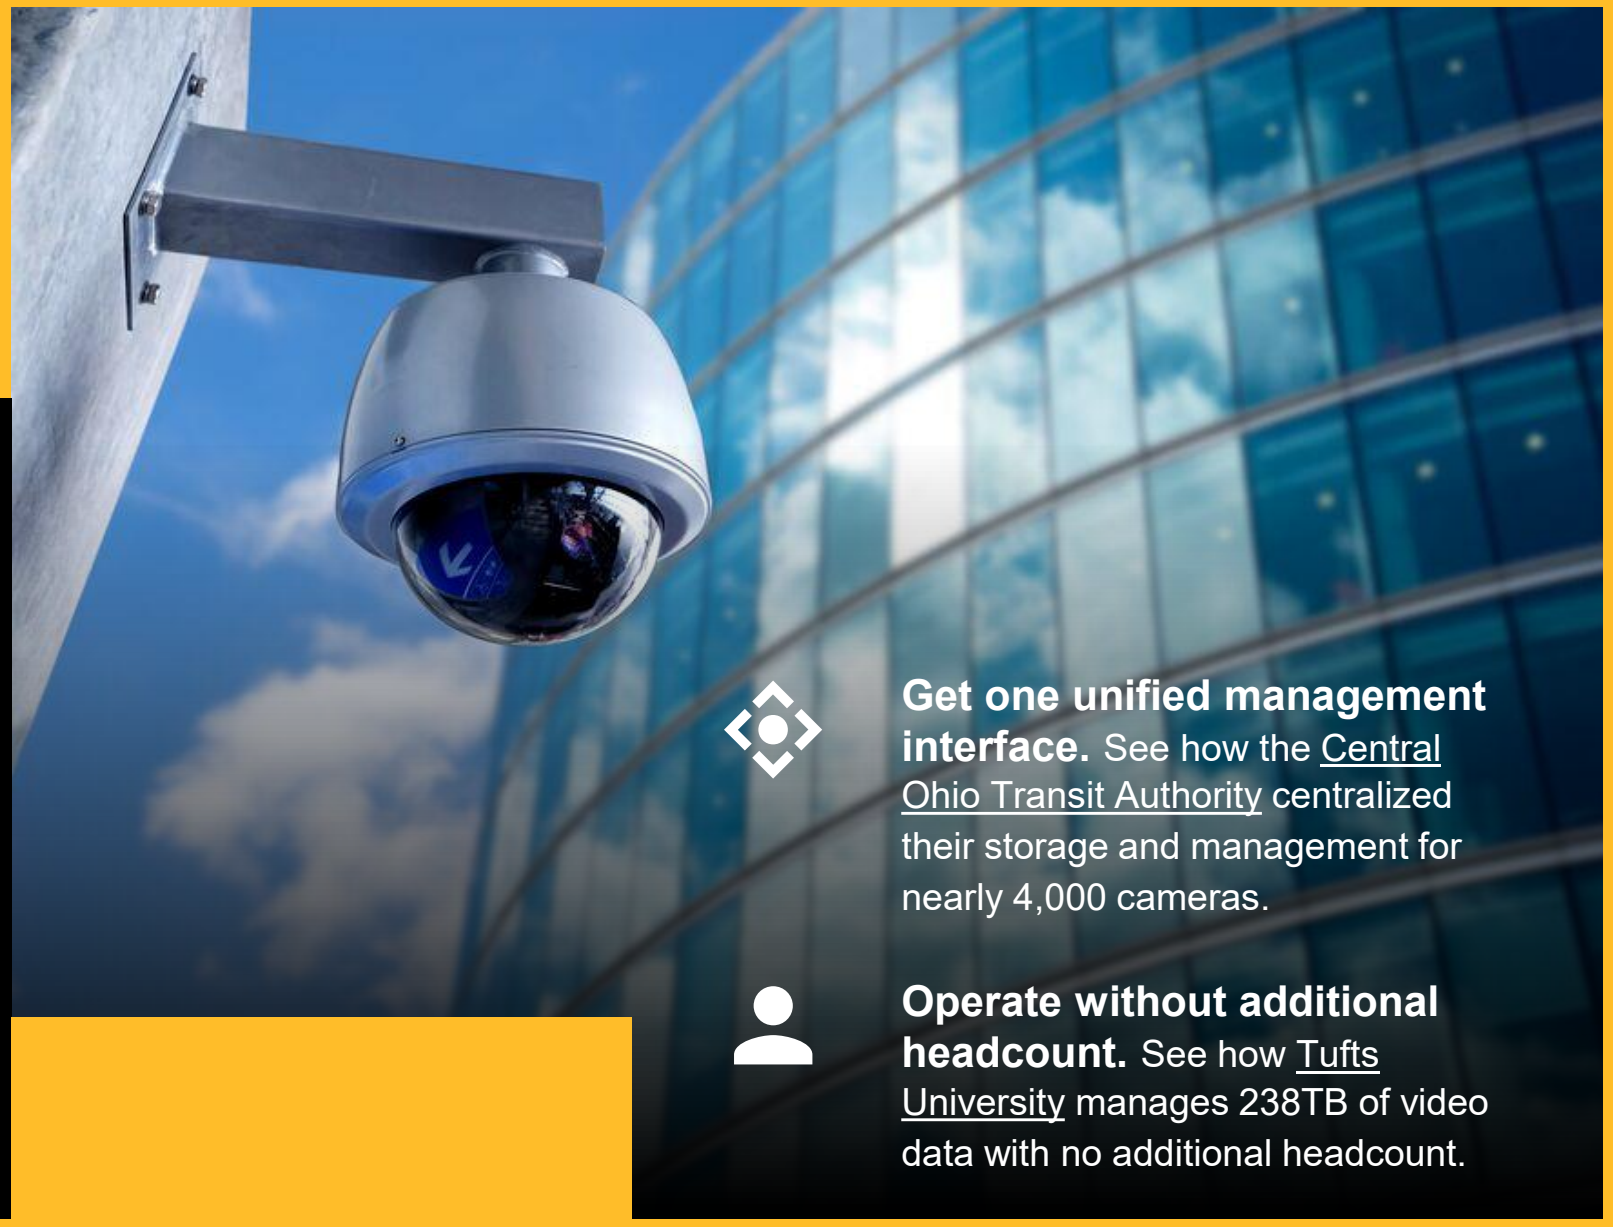
SIMPLICITY

EASE DEPLOYMENT AND SUPPORT

You don’t need serious IT skills to install and support NetApp systems. Our enterprise architecture with its “call home” support capabilities is much easier to support than complex, scale-out file-system storage.



Get one unified management interface. See how the Central Ohio Transit Authority centralized their storage and management for nearly 4,000 cameras.

Operate without additional headcount. See how Tufts University manages 238TB of video data with no additional headcount.
