NetApp
U.S. Public Sector

DATA MODERNIZATION WITH LESS COMPLEXITY

Turn your public sector data into power.

Whether you're educating future leaders, serving citizens, or protecting our nation, data is the core currency that powers these and every mission in the public sector.

To make the best decisions for your organizations and those you serve, you need access to any data, any place, in real time.

With NetApp for SAN, you get all that and more, with maximum performance and availability at an unbeatable price.

NetApp has cracked the code for modern SAN storage.

Your mission-critical applications require secure, powerful storage solutions that can meet the needs of any workload, remain cost effective, and easily integrate into the cloud.

When your critical workloads demand the performance and availability of dedicated SAN storage, give them the only SAN-optimized storage that offers all-flash performance for the price of disk.

WITH NETAPP, YOU CAN:

1 Improve performance at any scale
- Scale up and scale out with predictable all-flash performance

2 Ensure nonstop data access
- Guaranteed six nines availability[1]

3 Enhance data protection and recovery
- Guaranteed ransomware recovery[2]

4 Harness the power of cloud
- Native cloud integrations with AWS, Azure, Google Cloud, and VMware Cloud Services

5 Reduce TCO and improve sustainability
- Guaranteed 4:1 storage efficiency[3]
- Up to 70% lower power consumption

6 Simplify deployment and management
- Comprehensive data services with ONTAP
- One unified platform for SAN and NAS, on premises and in the cloud

[1] Availability Guarantee terms and conditions
[2] Ransomware Recovery Guarantee terms and conditions
[3] Storage Efficiency Guarantee terms and conditions

Fusion energy has the potential to revolutionize the way we power the world. Achieving fusion required the power of NetApp.

"There were people who said we could not achieve that level of reliability from all 192 lasers. That's five 9's raised to the 192nd power. That's an incredibly small amount of downtime. But we routinely do it now, which allows us to meet our scientific and stockpile stewardship goals."

Bruno Van Wonterghem
Operations Manager and Laser Scientist, NIF

Lawrence Livermore National Laboratory

Trusted by 20,000 NetApp customers for their SAN workloads

Deep partnerships with VMware, Brocade, Cisco, and Oracle

A Leader in the **2023 Gartner® Magic Quadrant™ for Primary Storage**

"We have over a petabyte of data that we've pulled in out from under the desks of researchers and into the data center–giving researchers data performance, reliability, and availability."

Eric Sedore,
Chief Technology Officer, Syracuse University

Syracuse University

A PORTFOLIO OF DEDICATED SAN SOLUTIONS FOR EVERY NEED:

PERFORMANCE FLASH:
NetApp ASA A-Series
Deliver exceptional performance to improve customer experience and reduce time to results.

CAPACITY FLASH:
NetApp ASA C-Series
Dramatically reduce storage footprint and deliver all-flash performance for the price of disk.

READY TO GET STARTED?

Contact your NetApp representative to schedule a complimentary SAN Acceleration Workshop and get your customized plan for SAN modernization.

About NetApp
NetApp is the intelligent data infrastructure company combining unified data storage, integrated data services, and CloudOps solutions to turn a world of disruption into opportunity for every customer. NetApp creates silo-free infrastructure, then harnesses observability and AI, to enable the best data management. As the only enterprise-grade storage service natively embedded in the world's biggest clouds, our data storage delivers seamless flexibility and our data services create a data advantage through superior cyber-resilience, governance, and applications agility. Our CloudOps solutions provide continuous optimization of performance and efficiency through observability and AI. No matter the data type, workload or environment, transform your data infrastructure to realize your business possibilities with NetApp. www.netapp.com
