

DATASHEET

NetApp SupportEdge Services portfolio

**Smarter support for a proactive,
predictive experience across your
NetApp hybrid cloud.**

**Gain the robust support you need for your hybrid
cloud platform**

Take your support experience to the next level with NetApp® SupportEdge Services. Actionable proactive analytics and predictive support, delivered by NetApp Active IQ® Digital Advisor, help you optimize the efficiency, security, performance, and availability of your NetApp data infrastructure.

Proactive and predictive support and expedited access to global technical experts give you the right support whenever and wherever you need it. Simplified, intuitive packaging options for hardware and software make it easier to choose the right support level for your business, and flat and predictable pricing¹ help you control costs across the lifecycle of your NetApp solution.

Select from value-added tiers to meet specific business needs

Our service tiers are designed to meet your exact needs—from basic hardware and software support to comprehensive, proactive, personalized support through NetApp technical experts and our digital support tools.²

- **SupportEdge Basic.** Delivers base-level support to keep your systems secure and running. Includes access to all classic Active IQ capabilities as well as rapid parts delivery and the option to upgrade to onsite parts replacement.
- **SupportEdge Advisor.** Includes all the features of SupportEdge Basic with faster target response times. Includes Digital Advisor capabilities delivered through advanced Active IQ AIOps features such as automated risk remediation, Active IQ digital digest, nondisruptive firmware upgrades, and digitized health checks. This tier also offers access to rapid parts delivery and replacement to keep your environment running at peak performance. SupportEdge Advisor provides the detailed information you need to help your technical staff run their business efficiently and confidently.
- **SupportEdge Expert.** Expands the features of SupportEdge Advisor to deliver faster delivery and onsite installation of replacement parts. Provides advanced proactive, personalized support delivered by NetApp Support account managers to derive more value from your solutions. Includes direct routing to level 2 support for software issues as well as managed upgrade services and periodic system health reviews performed remotely by NetApp professionals. The SupportEdge Expert solution can help you to supplement your resources and technical expertise for mission-critical applications.

Key benefits

- Enhanced efficiency, availability, performance, and security through proactive and predictive support
- Full-stack visibility, across your hybrid cloud platform, in a single service contract
- Value-added support options to meet specific technical needs
- Simplified engagement with single-package support for hardware and software
- Improved cost management with flat and predictable renewal pricing¹

- **SupportEdge Protect for Government.** An add-on component to either SupportEdge Advisor or SupportEdge Expert to meet the needs of U.S. government organizations. Delivers advanced support while providing flexibility to meet demanding security requirements.

Bring more value to your NetApp hybrid cloud solution with full-stack visibility

NetApp SupportEdge Advisor and SupportEdge Expert offer full-stack visibility across your entire storage ecosystem and beyond, helping your staff to:

- Quickly pinpoint issues with consolidated problem alerts and monitoring and analysis.
- Simplify troubleshooting by mapping storage to compute for more targeted troubleshooting and problem solving across on-premises and cloud environments.
- Reduce complexity and free up IT staff by eliminating the need to manage multiple tools and license separate products to accomplish a full-stack view.

¹ NetApp offers flat and predictable pricing only for the party purchasing directly from NetApp, whether that is the end customer, distributor, or reseller partner. Flat and predictable pricing(i) is subject to increases for annual inflation (as measured by the Producer Price Index); (ii) does not include replicating any one-time promotional discounts or deal discounts upon renewal; (iii) third-party branded products that NetApp supports may be subject to additional passthrough increases imposed by third-party vendors.

² For complete details and features included with each SupportEdge Services offering, please see the [NetApp Support Services Descriptions page](#).

Feature	SupportEdge Basic	SupportEdge Advisor	SupportEdge Expert	Benefit
Core support services				
Access to remote technical support	24/7	24/7	24/7	Delivers rapid, 24/7/365 response any time an incident happens
Target response objective for remote technical support	Priority 1: 2 hours	Priority 1: 30 minutes	Priority 1: 30 minutes	Gets environment up and running faster, when downtime is simply not an option
