

NetApp HPC Solutions

**Simplified deployment and management
that make storage easy**

With a single platform and modular design, the NetApp® HPC solutions built on E-Series are easy to deploy and manage. On-the-fly replication lets you dynamically configure new systems for faster deployment. Scripts enable you to automate common tasks for easier management.

Unified management interface

See how the [Poznan Supercomputing and Networking Center](#) is making storage management in a complex research center easier with a NetApp HPC solution.

Downtime and interruption during migration

See how [Mercedes-Benz Türk](#) leveraged easy deployment features to quickly and successfully transition its mission-critical SAP HANA environment to a NetApp HPC solution.
