<sup>i</sup> Regulation (EC) No 1907/2006 of the European Parliament and of the Council, dated 18 December 2006, concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals.

<sup>ii</sup> Electrical and electronic equipment (EEE) is to be collected separately and to be reused, recycled, or recovered at end-of-life.

Users of EEE must not dispose of end-of-life EEE as unsorted municipal waste but use the collection framework available to customers for the return, recycling and recovery of waste EEE. Customer participation is important to minimize any potential effects of EEE on the environment and human health due to the potential presence of hazardous substances in EEE. For proper collection and treatment, see the [NetApp WEEE and Battery Compliance](#) statement.
