

# Managing Your NetApp Accounts and Certification IDs

Learning and certification accounts created using both a personal and business email addresses result in disconnected records. For visibility to all your NetApp learning and certification history align these three accounts.

## 1. Pearson VUE Account

- a. Go to [NetApp :: Pearson VUE](#)
- b. First time registration to Pearson VUE
  - i. Select Create Account and follow the prompts to create your account.
- c. If you have an existing account
  - i. Sign in and select the option ‘See exams for a different testing program’ and select NetApp Certification Program.

## 2. CertCenter Account

- a. Go to [CertCenter](#)
- b. First time registration to CertCenter
  - i. Select “Never logged in before?” below the login button. For first-time registration, you will enter your last name and exam registration number from any one of your score reports provided by Pearson VUE.
    1. Select First Time User and sign in with your account username and password.
    2. Provide the NetApp Testing ID and email address from your Pearson VUE profile.

## 3. Learning Center Account

- a. Go to [Learning Center](#) and follow the prompts to create your account.

### For more information on the NetApp Certification Program

Go to [Certification Programs - NCIE NCDA & more | NetApp](#) to find recommended training, prerequisites, and resources, including practice exams.
