

MODERNIZE WITH INTELLIGENCE

Replacing ViPR SRM with NetApp Data Infrastructure Insights

ViPR SRM has been discontinued, leaving customers with limited support, outdated features, and no upgrade path. Now is the time to move forward.

NetApp Data Infrastructure Insights provides a future-ready, SaaS-based alternative that not only delivers all the capabilities ViPR SRM customers rely on but also introduces powerful alternative features to modernize and simplify infrastructure management.

Why choose Data Infrastructure Insights?

Seamless integration: Plug insights directly into your existing workflows. Data Infrastructure Insights integrates effortlessly with tools like ServiceNow, vCenter, major cloud platforms, and your on-premise environment.

Proactive operations: Move from reactive to proactive. Our solution uses AI/ML-powered analytics to anticipate and resolve problems before they can impact your operations, giving your team the power to stay ahead. This has helped existing customers reduce incident tickets by up to 70% and resolve issues 50% faster.

Unified visibility: Gain a clear, comprehensive view across your entire hybrid and multi-vendor infrastructure. Make confident, data-driven decisions with deeper, more actionable intelligence at your fingertips.

	What you're used to with ViPR SRM	What you gain with Data Infrastructure Insights
Security enhancements	Security not a core feature	Built-in ransomware detection, data access auditing, and proactive alerting
Analytics & Optimization	Limited anomaly detection	AI-driven insights for enhanced anomaly detection and optimization
User interface	Legacy browser interface	Intuitive, customizable, modern experience
Future readiness	Discontinued product	Actively developed for support of modern workloads including AI and Kubernetes

Ready to modernize your infrastructure?

About NetApp

NetApp is the intelligent data infrastructure company, combining unified data storage, integrated data services, and CloudOps solutions to turn a world of disruption into opportunity for every customer. NetApp creates silo-free infrastructure, harnessing observability and AI to enable the industry's best data management. As the only enterprise-grade storage service natively embedded in the world's biggest clouds, our data storage delivers seamless flexibility. In addition, our data services create a data advantage through superior cyber resilience, governance, and application agility. Our CloudOps solutions provide continuous optimization of performance and efficiency through observability and AI. No matter the data type, workload, or environment, with NetApp you can transform your data infrastructure to realize your business possibilities. www.netapp.com
