58%

5-year ROI

286%

Payback

9 MONTHS

Enabling Data Backup and Recovery Activities

VM recovery windows

78% FASTER

Data recovery windows

89% FASTER

Data backup windows

28% SHORTER

Veeam customer said: "Data recovery used to take 1–2 hours, and now it's down to 3–5 minutes. That huge improvement is the reason we went with Veeam."

Operational and Cost Impact

Data backup and recovery teams

56% MORE EFFICIENT

Unplanned downtime

89% LESS

Cost of hardware

36% LOWER

Veeam customer said: "The Veeam and NetApp environment is much more automated and much more secure. We went from having a very complicated setup every time we added a new client to not having to do anything because the system actually discovers the new VM created."
