

# Video Surveillance Solutions from NetApp and Tech Data

## Video Surveillance at the Speed of Life

Video touches our lives every day. As video surveillance deployments grow, the storage becomes more important to simplifying complexity and enabling nonstop data availability. We partner with the industry's best to build rock-solid solutions for today and tomorrow.

NetApp® Video Storage Solution

Video Management Software

### 1 NEVER LOSE ACCESS.

We build the NetApp video surveillance solution on a fault-tolerant design that is proven to deliver **greater than 99.999% availability**.

### 2 GET THE SPEED THAT YOU NEED..

Get the advantage of high density and high performance in the same small footprint—without compromise.

### 3 EASILY DEPLOY AND SUPPORT IT.

Our enterprise architecture, with its “call-home” support capabilities, is much easier to support than complex, scale-out file-system storage deployments.

### 4 SCALE WITHOUT LIMITS.

From 200 video cameras to 200,000, we designed our enterprise video storage solutions to scale transparently.

### 5 LOWER YOUR COST OF OWNERSHIP.

Reduce NVR sprawl, simplify management, and avoid costly downtime with reliable storage that's easy to use, and easy to scale.

### 6 THE POWER OF PARTNERSHIP

Leverage a full suite of add-on services including Implementation, Security and Penetration Testing, Education Services, and Cloud Back Up with TechData.
