

Kids@NetApp

Activity Book

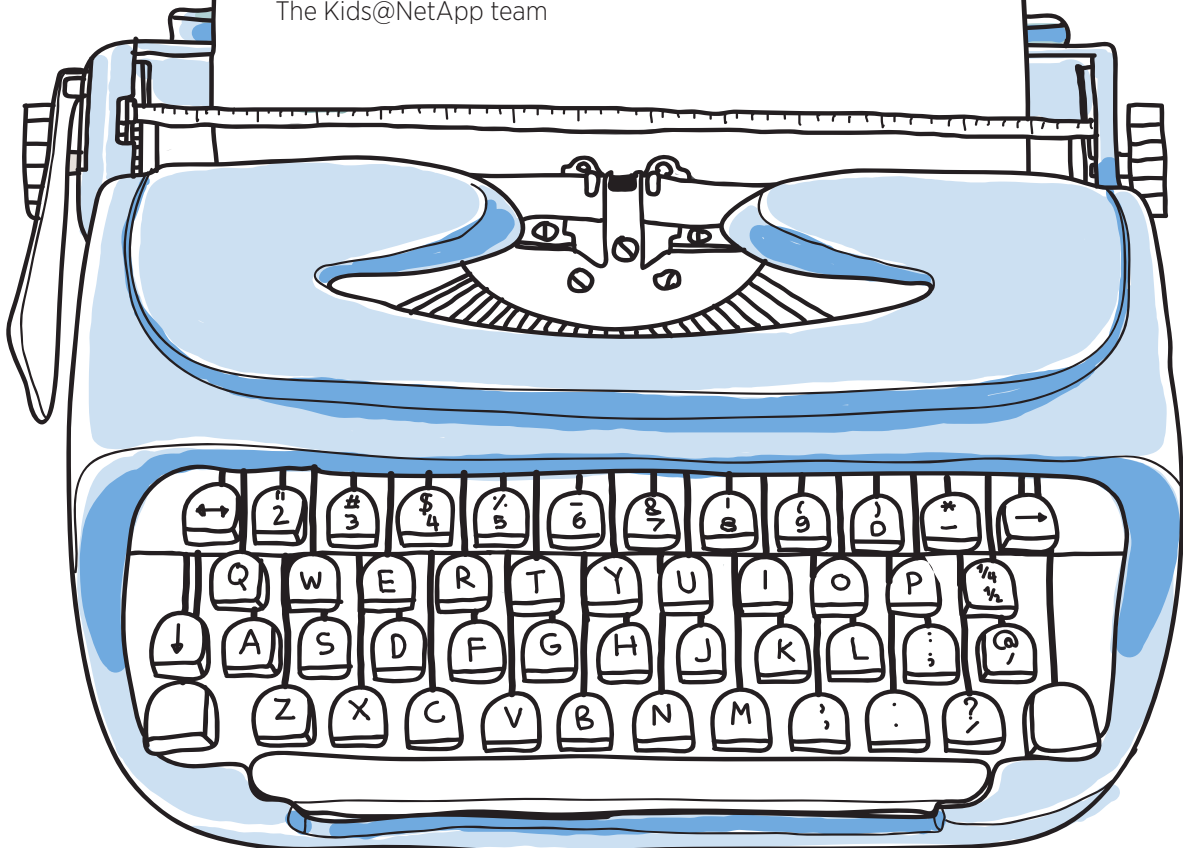

Kids@NetApp

At NetApp, family is at our core. It's what helps us drive innovation around the world. With the NetApp community spanning across six continents from our NetApp team, our business partners, our suppliers and our customers – these are not just business relationships, but they are human relationships. We are here for each other and we take care of each other.

Caring is at the heart of what we do. The Kids@NetApp activity book has been designed to help provide a bit of entertainment and escape for you and your family. To bring joy, to learn new things and to share our creativity, our challenges and successes.

If you would like to share any of your creativity with us and the community, please share via social media with the **#KidsAtNetApp**. We would truly love to see what you create together! Have fun and enjoy!

The Kids@NetApp team

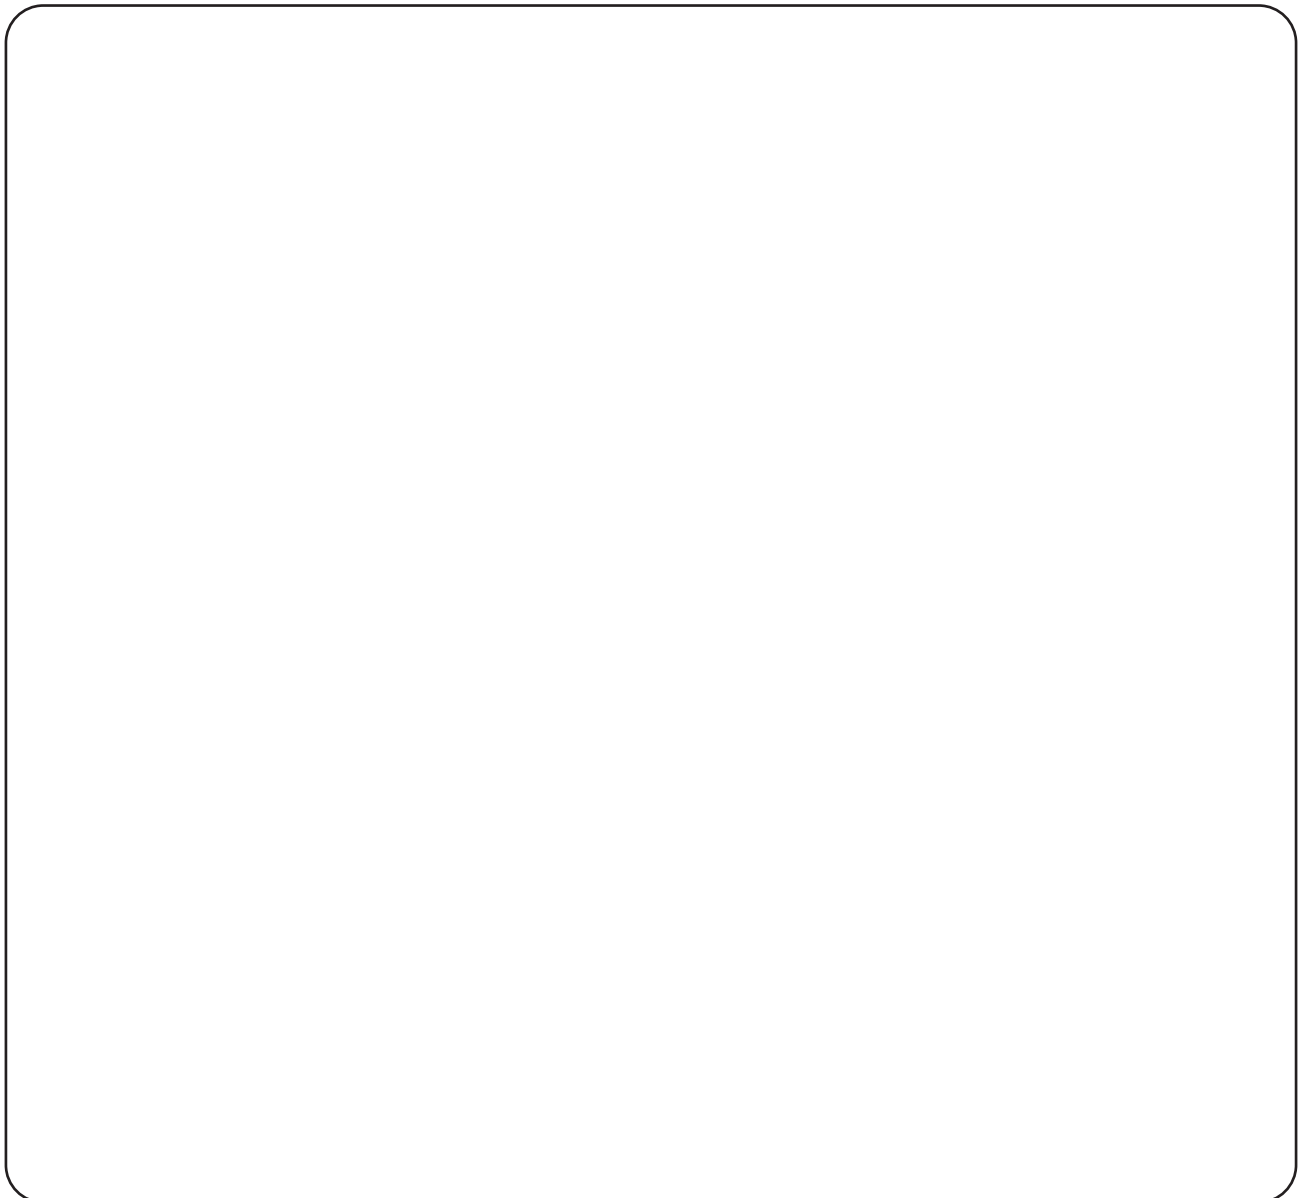

Drawing

*Please be sure to share your art with us via social media! Tag it **#KidsAtNetApp** and we will create a virtual artwork wall.*

Topic: my family at work

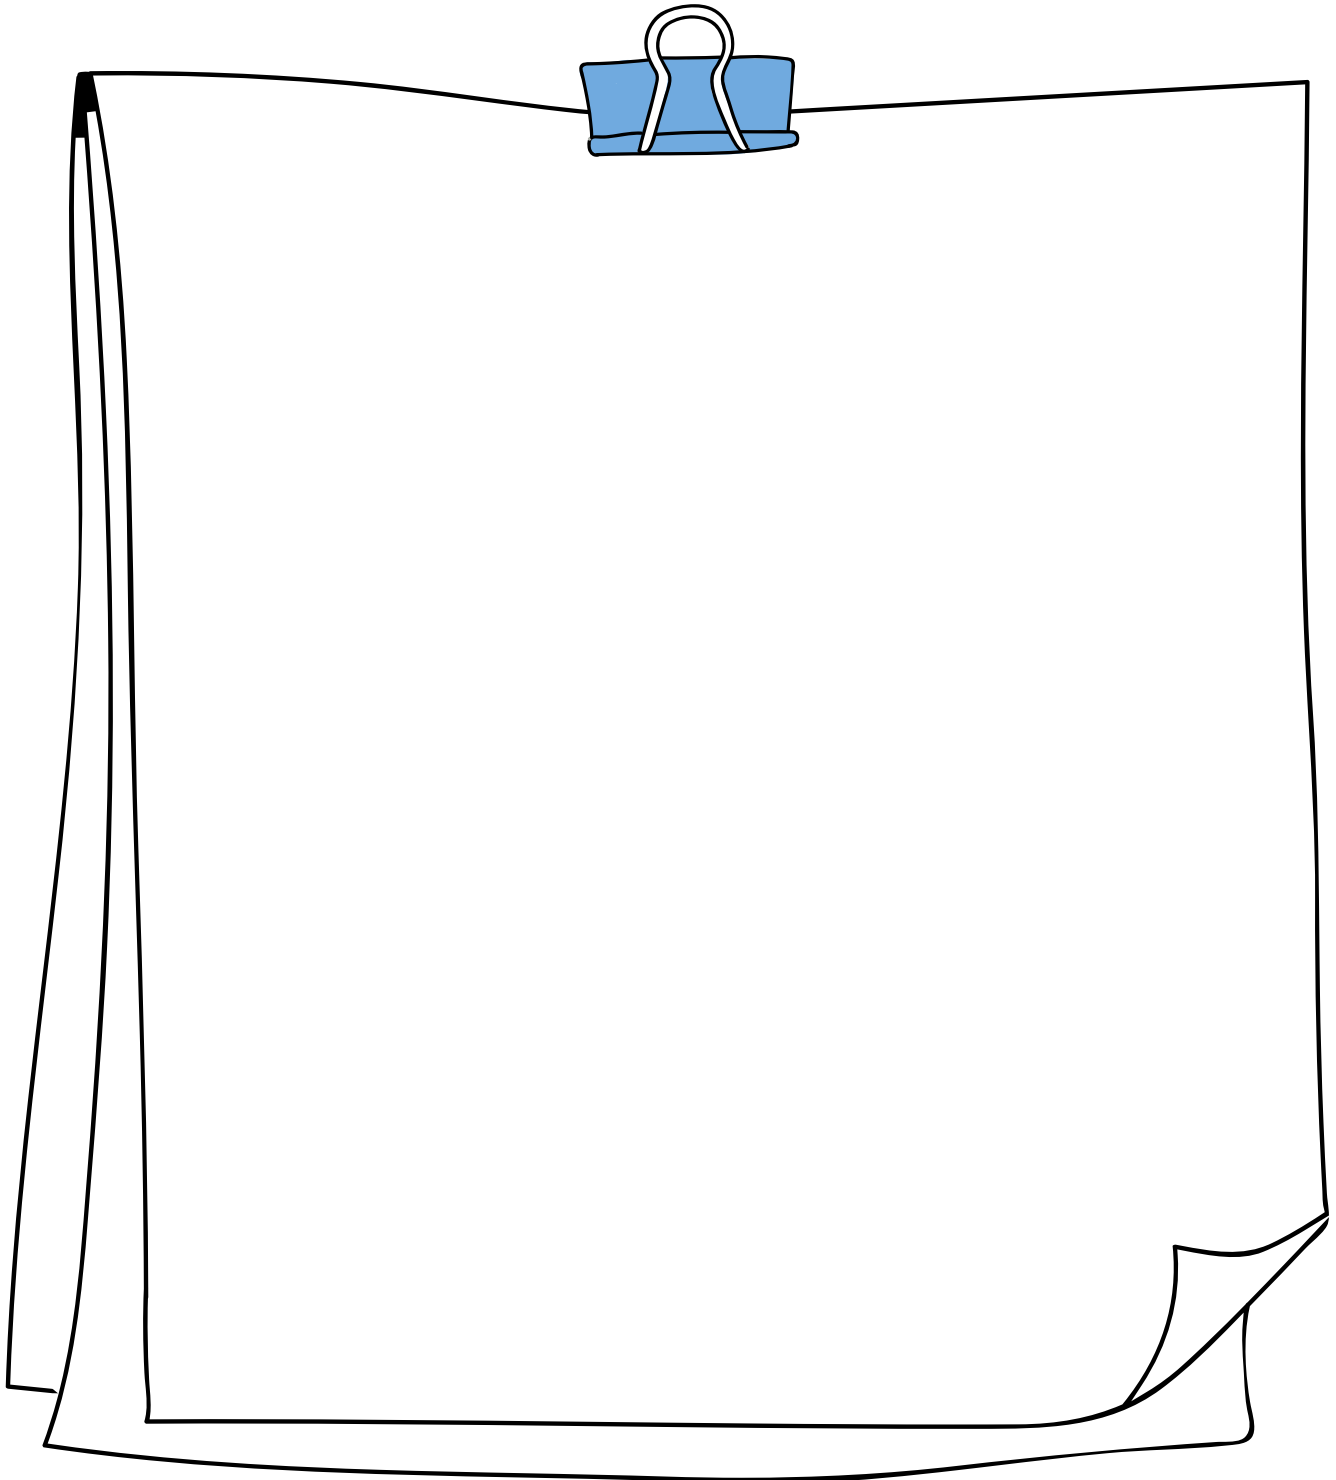

Today some of us are being more creative in how we work. Of course, many are working from home. But we are also now teaching school at home, volunteering to help our neighbours and community, reaching out to essential healthcare workers to help where we can. Create a picture of your family at work. What's changed? What's stayed the same?

Poetry

*Please be sure to share your poem with us via social media! Tag it **#KidsAtNetApp** and we will share your poetry with the world.*

Poetry enables you to express your feelings and ideas in a creative form. For this exercise, create a poem or a song about this current month and/or season.

Stay Home, Be Safe

Many countries and communities around the world are learning and working from home. Are you able to find the following words? The words may be placed horizontally and vertically.

N	E	T	A	P	P	A	T	H	O	M	E

Topic: working in the cloud

In technology, cloud enables companies, schools and the government to access software, services and technology via the internet. Remotely accessing data from any device and being able to scale technology as it is required. Create a picture of what working in the cloud means to you.

Cities Around the World

NetApp is a global community with employees, partners and customers from all corners of the world. Are you able to find the following 25 cities? The words may be placed horizontally, vertically, diagonally, forwards or backwards.
