NetApp + IBM Cloud

Greatest hits

Discover the best of hybrid cloud solutions.

This talented duo turns up the volume on success with their crowd-pleasing, high-performing infrastructure.

VOL. 1

Stairway to reliability
Walk on the secure side
Don't stop believing (in hybrid value)

1 Stairway to reliability

Let NetApp + IBM's deep expertise across 20 industries lead the way. Get ready to rock with next level forces like:

- 180,000 IOPS of NetApp-certified storage
- File shares from 20 GB to 12 TB
- Scale performance to 180,000 IOPS and 18 TB

2 Walk on the secure side

Like having bouncers surrounding your data, take NetApp + IBM's data protection for a spin with unmatched security and recovery features like:

- 60 data centers worldwide
- Thousands of security pros monitoring 24/7
- Veeam solutions and integration for faster recovery and risk mitigation

3 Don't stop believing (in hybrid value)

Are you getting zero satisfaction from your cloud performance? Tune into NetApp + IBM's legendary data management that can:

- Increase control with flash-backed architecture
- Auto-tier data to get the most cost-effective IBM Cloud storage
- Purpose-build cloud solutions to address industry challenges
