Get Ahead of the Competition by Unlocking the Value of Your Data

Did you know that with NetApp® all-flash solutions for Microsoft applications, you can:
- Accelerate performance
- Improve flexibility and business agility
- Boost ROI

Accelerate Performance

VITAL ENERGi

"Reports that took 3 to 5 hours are now generated in 10 minutes, and we're aiming to bring this down to a single-digit figure. We're blown away by the performance. There are no restrictions."

—Jon Woan
IT Manager, Vital Energi

Improve Flexibility and Business Agility

Invesco

"We can support the business with much more agility now that we have virtualized our most critical Oracle and Microsoft SQL Server databases on NetApp AFF."

—Jonathan Tiemann
Lead, Storage and Compute Platforms Group, Invesco

Boost ROI

MANTRA GROUP

"With our NetApp AFF system, we could double the number of properties we manage over the next three years while providing the high level of performance our customers and employees expect."

—Garry Rich
IT Group General Manager, Mantra Group

Accelerate your Microsoft workloads with the **world's fastest cloud-connected flash**. Now powered by end-to-end NVMe.

Go Faster
Accelerate transaction performance by up to 3 times, with latency of less than 0.7ms in peak hours.

Be Efficient
Reduce costs by 60% to 70% compared with legacy spinning disks and improve ROI with a 6-month payback.

Get Cloud Connected
Manage apps where they run best by freely moving data between on-premises infrastructure and the public cloud.
