

NetApp's new sustainable packaging: **five advantages**

Did you know NetApp offers a free e-waste collection program? [click here to learn more](#)

Sustainable materials

Our new packaging is made from 98% recycled/renewable materials

Reduced CO₂ emissions

New packaging produces 50% lower greenhouse gas emissions compared to previous foam packaging

Curbside recyclable

Boxes, inserts, and materials are curbside-recyclable, making recycling easier and less costly

Easier unboxing

New two-piece shipping box provides easier removal and handling

Enhanced protection for your NetApp products

Up to 51% reduced impact shock compared to previous foam packaging
