EMEA Executive Briefing Center

BUILD YOUR OWN DATA FABRIC

The NetApp EMEA Executive Briefing Center is located at our European HQ in Amsterdam. We host visitors from around the world to discuss current and future business requirements, exchange ideas with NetApp executives, and collaboratively explore new ways to solve business challenges. We offer interactive discussions with key NetApp executives, product experts, and the engineers responsible for designing technology roadmaps. We also have the possibility to conduct joint briefings with partners such as Cisco, Google, Microsoft, Veeam and NVIDIA just to name a few.

"The content was excellent, tailored to our needs and providing us with a way forward. We feel like we are not alone and that we have NetApp supporting us in implementing our vision and dream."

Enterprise Strategist, Law
enforcement agency

1. Take advantage of a highly customized agenda to discuss strategies and solutions to help you implement your vision.
2. Share your insights during an intimate Voice of the Customer session where our discussion leaders actively listen as you share your strategic needs and vision for your business.
3. Benefit from full-facilitation and sessions in your preferred language (ask your briefing manager about the different available options).
4. Collaborate with our experts in intensive white-boarding sessions to design a plan to execute your specific business goals.
5. Get a full glimpse of the NetApp portfolio and receive exclusive roadmap updates.
6. Engage with NetApp executives as they provide best practices, industry insights and learnings from NetApp's own transformation.
