NetApp Cloud Insights Implementation Service

Accelerate the integration of Cloud
Insights into your ecosystem.

The challenge

Complex integration

If not done correctly, integrating new technology solutions into complex IT environments and ecosystems can have a negative impact on a business by causing downtime and loss of data. Spinning up a new NetApp Cloud Insights instance is quick and easy. However, transitioning to a fully integrated solution that can deliver all the benefits of this cloud-based infrastructure monitoring tool requires specialized integration and configuration expertise. In addition, transitioning a current NetApp OnCommand Insight solution to Cloud Insights, without losing data and customized reporting already deeply integrated into IT systems and processes, entails specialized know-how.

The solution

Get all the benefits faster

To help you take full advantage of all the monitoring, optimizing, and security benefits that NetApp Cloud Insights offers, the NetApp Cloud Insights Implementation Service provides the expertise to:

- Simplify the monitoring of all assets across your heterogeneous environment, reducing the need for multiple tools.
- Identify and customize reporting to meet your specific business needs.
- Ensure that current OnCommand Insight users don't lose data or customized reporting as they transition to Cloud Insights.
- Quickly transition to Cloud Insights with minimal downtime and impact to your business.

To address the specific outcomes you want to achieve, the service offers several delivery packages:

- **Cloud Insights Activation.** Sets up, configures, and integrates the new Cloud Insights solution into your ecosystem and environment so you can quickly start realizing the benefits.

Key benefits

Streamline delivery

- Enjoy the benefits of NetApp® Cloud Insights sooner and achieve outcomes that provide value for the business faster.

Minimize risk and downtime

- Integrate into existing tools and ecosystem with minimal impact on your business.

Optimize integration

- Make sure that the Cloud Insights solution is integrated, configured, and optimized to meet your business needs.

- **Cloud Insights Advanced Reporting.** Creates customized reports based on your specific needs, to gain insight and take action. (Cloud Insights Premium required.)
- **OnCommand Insight to Cloud Insights Transition.** Ensures that you get the same outcomes—configurations, customizations, dashboards, reporting, annotations—when you transition to Cloud Insights.
- **Cloud Insights Performance Dashboard.** Sets up and configures customized dashboards to assist you in monitoring and managing the performance of the assets within Cloud Insights. (Cloud Insights Premium required.)

Service details

Using best practices and proven methodologies, NetApp Cloud Insights Implementation Service accelerates your transition:

- **Fast integration.** Gets the new tool up and running quickly.
- **Simplified custom reporting.** Ensures that custom reports meet your specific business requirements.
- **Remote/virtual delivery.** Provides faster scheduling, lower cost, and no on-site requirement for resources.
- **Ensured data accuracy.** Delivers NetApp proprietary automated process to ensure the accuracy of data transition from OnCommand Insight to Cloud Insights.

Trust the experts

You can rely on NetApp Professional Services to deliver the expertise you need to quickly enable the monitoring, optimizing, and security benefits you expect from implementing NetApp Cloud Insights.

About NetApp Services

Whether you're planning your next-generation data center, need specialized know-how for a major storage deployment, or want to optimize the operational efficiency of your existing infrastructure, NetApp Services and NetApp Professional Services Certified Partners can help.
