

# NetApp Flash Advantage for All Flash FAS

Making adoption of flash easier, faster, and future-proof

## Get the power of All Flash FAS:

-  Lightning-fast speed
-  Unified data management from flash to disk to cloud
-  Unparalleled flexibility with nondisruptive scale-out and scale-up

## And make the transition to flash risk-free with Flash Advantage:

### **Stay on the cutting edge of flash technologies and eliminate downtime with free controller upgrade.**

Receive a new controller for free three years after initial purchase with a total of six years of SupportEdge premium support.

### **Accelerate your enterprise applications with guaranteed high performance.**

We guarantee a 3X performance increase for your enterprise database applications compared to traditional non-flash, disk-based systems.

### **Evaluate the game-changing all-flash solutions at no risk with Try and Buy.**

Try before you buy at no cost for 45 days.

### **Get the world-class support you can trust, for up to 7 years.**

Extend support for up to 7 years for a fixed rate, either at the point of sale or at renewal.

## More Information:
