### About ONTAP Cloud Software Subscription

The ONTAP Cloud software-only storage appliance runs the NetApp ONTAP® data management software. ONTAP Cloud for Microsoft Azure is a virtual storage appliance that runs in a Microsoft Azure data center. ONTAP Cloud software subscriptions provide control and governance of data with the power of an enterprise storage software solution. Building a cloud storage environment with an ONTAP Cloud software subscription provides enterprise-class features for cloud storage.

ONTAP Cloud for Microsoft Azure is sold as a 12-month subscription (bring your own license) and as an hourly/annual subscription (pay as you go). Find out more at the Microsoft Azure Marketplace.
